The Punkin Chunkin...

There will be two punkin chunkin launches. You are welcome to attend either one. If you get done with everything, join us at the first launch. If you still have a couple areas to visit, join us at the second launch. Plan on making it the last stop of your day before you head home.

In Case of Inclement Weather...

Activities will continue under the shade shelters next to the activity area. Please stay out of the ravines that run through camp. If there is heavy rainfall these will quickly fill up with rushing water. The use of the climbing wall is dependent on weather: rain, wind, and lightning will shut the wall down.
